

Distractor Implants

Distractor Implants are holographic “emotion projectors” that keep you trapped in a LOOPING or churning emotion that keeps cycling around, getting bigger and building by grabbing more viewpoints and energy each time round. You can’t delete the emotion (because it’s an illusion) but you can delete the installed **projector**! That one can never come back. Clear them all and you are free!

Anger, Rage, Fury, Hate, Fear, Doubt,
Jealousy, Blame, Shame, Regret, Guilt
Addictive, Compulsive, Obsessive, Perverted - Points of View

They can also exist in other topics that you feel “driven” to engage, such as:

Love, Sex, Peace, Life, Death,
Living, Reality, Business, Relationship

handling **“FEAR”** permanently

Ask
“Is this fear or excitement?” (see which is lighter)

Fear as a “distractor implant”, just clear it:

”All mobius strips, quantum
particulates, SHICUUUU implants,
and trifold-sequencing systems,
underneath, around and inter-tangled
with all this, I destroy and uncreate it
all.” *Right & Wrong, Good & Bad, POD & POC, all 9’s,
shorts, boys, & beyonds*

Many cultures have relabeled excitement
(your natural life-force energy) as fear.

So you’ve literally learned to “fear” your
excitement energy (your source!)

If it’s actually excitement, when you ask
this question, the energy will change from
fear back to excitement.
