These powers deal with energy generation, conversion and manipulation versions exist that deal: light, sound, electricity, nuclear energy, and the Darkforce dimension.

discharge an incredibly powerful energy-burst

release beams of pure solidified energy with effects ranging from slight push to major damage

Discharge an energy that is capable of redirecting at one's will and phase through and effect objects.

The power to generate microwave energy.

The generate powerful shock-waves that can cause objects/people to be pushed over, repulsed back, shatter

The power to generate bombs and explosives.

The user attracts ambient electricity and gaseous chemicals to produce multicolored fireworks.

generate light of various intensities and varying durations of time.

The ability to manipulate the essence of Life, which is present in all living beings throughout the universe.

create, shape and manipulate the energy possessed by any moving object

The power to absorb ambient energy into one's body/proximity, and convert into another form of energy

The power to craft a numerous variety of desired objects or tools out of pure energy.

The ability to project powerful fields of manipulated energy.

The power to cause matter to burst into flames and explode.

The negate energy, including dimming light, extinguishing fires, or negating force-fields.

Powers that involve changing location of oneself or others.

The power to travel between different dimensions.

The power to travel through electrical conduits/lightning and the users own powers of electricity.

The power to create portals for transport between two non-adjacent locations.

Power to create an incredibly enchanting effect that lures and summons anyone perceiving it towards the user.

The ability to move instantaneously from one location to another without physically occupying the space in between.

The ability to move through time.

Power to fly or otherwise move through the air using varying methods.

cause oneself/subjects/objects to hover/float in the air unassisted

The manipulate their own molecular structure to achieve a variety of different effects.

Ability to cause people to perceive things differently from what they truly are

The project a holographic copy of oneself or another object/organism.

Ability to change appearance or body structure.

The power to transform and reshape the form of one's body.

The modify the physiological features of oneself and others, including face, body or skin to disguise or look like another person.

The transform into animals, as well as use the abilities, traits and appearance/physiology of that animal

The power to change the size of oneself or others while preserving body proportion.

The either accelerate or reverse the aging process in themselves or others.

The ability to stretch, deform, expand, or contract one's body into any form imaginable.

Power to transform into or have a physical body made up of air or other gaseous substance.
